

PRODUCT LABEL

WONDERCHAR PECANCHAR SOIL+

SKU: PS SA H 12

Purpose:

Structured, Low Dust Granular Pecan Shell Biochar for enhancement of soil, compost, and grow media blends

Boosting fertility of Soil, Compost, & Grow Media by improving retention of nutrients, water, & cultivation of beneficial microbes. Increasing porosity & improving drainage of soils. Protecting plants from toxic heavy metals or organic contaminants. Reduction of odor when blended with fertilizer, compost, or manure & improved moisture retention & aeration in composting. Available in 2 Cu. Yard Bulk Bags (1,653 lbs each) & 1.5 Cu. Foot Sacks (35 lbs each).

Directions for Use:

Wonderchar PecanChar Soil+ is made from pure Pecan Shell Biochar without addition of any blend material, ash, or fillers. Wonderchar PecanChar Soil+ is a soil amendment that can be used on all types of plants, grasses, trees, crops, sod, & seed. **Best when applied with nutrients.**

Application Rate for Non-Productive, Compacted, and Carbon-Poor Soils:

1,200 lbs to 2,400 lbs per acre by broadcast or top-dressing application similar to compost or dry fertilizer with appropriate soil incorporation. **Only one application every five years required.**

Application Rate for Productive Soils for Fertilizer Cost Reduction and Yield Boost:

Blend or co-apply with fertilizer at 10% of the weight of fertilizer application. Apply blended with dry fertilizer or prior to liquid fertilizer spray to reduce nutrient run-off & boost crop growth.

Garden and General Soil Mixes:

Blend 20% by volume into planting mix, grow media, or soil blend as a replacement for Peat Moss.

Additive to the Composting Process:

Blend 2% by volume at the start of the composting process or blend 20% with finished compost.

Guaranteed Analysis:

Biochar (derived from 100% virgin Pecan Shells) 100%

CHARACTERISTICS

Ash Content: 6% w/w

Moisture: 30% w/w

Surface Area: 350 m2/g

Density: 25 lb/cu.ft.

AVE Particle Size: 2 mm

pH: 8.5
